

PATHOLOGY LABORATORY

ACCURATE | WELL PRICED | SAFE | ON TIME | RELIABLE

₹ 2,200

OSTEOPOROSIS PROFILE

This profile is used to assess bone health and identify causes of reduced bone density or fracture risk. It evaluates calcium, vitamin D and markers related to bone metabolism.

Includes:

- Serum Calcium
- Serum Phosphorous
- Vitamin D-3
- Serum Alkaline Phosphatase

₹ 2,600

ARTHRITIS PANEL

This panel is used to investigate inflammatory and autoimmune causes of joint pain and stiffness. It supports diagnosis of arthritis and connective tissue disorders.

Includes:

- Complete Haemogram (CBC)
- ESR
- C-Reactive Protein (CRP)
- Serum Uric Acid
- RA Test
- ANA

₹ 2,500

BASIC METABOLIC PROFILE

This profile is used for general health screening and metabolic assessment. It helps evaluate cardiovascular risk, thyroid status and blood sugar levels.

Includes:

- Complete Haemogram (CBC)
- Lipid Profile
- Fasting Blood Sugar (FBS)
- TSH
- HbA1c

₹ 6,800

ANAEMIA PROFILE COMPREHENSIVE

This profile is designed for detailed evaluation of complex or unexplained anaemia. It helps identify nutritional deficiencies, haemoglobin disorders and haemolytic causes.

Includes:

- Complete Haemogram (CBC)
- Reticulocyte Count
- G-6 PD (Qualitative)
- Stool Occult Blood
- Vitamin B12
- Serum LDH
- Ferritin
- Hb Variants (HPLC)
- Iron Studies
- Folate

₹ 3,250

ANAEMIA PROFILE BASIC

This profile is used for initial evaluation of anaemia to identify common causes such as iron deficiency or inflammation. It supports early diagnosis and treatment planning.

Includes:

- Complete Haemogram (CBC)
- Reticulocyte Count
- C-Reactive Protein (CRP)
- Ferritin
- Iron Studies

₹ 1,800

CATARACT PRE-OPERATIVE PACKAGE

This package is designed specifically for patients undergoing cataract surgery. It ensures systemic fitness and infection screening before the procedure

Includes:

- Complete Haemogram (CBC)
- Urine routine examination
- Fasting Blood sugar and Post Lunch Blood sugar
- Triple H (CLIA)

₹ 6,000

ANTENATAL PROFILE COMPREHENSIVE

This profile is created for a more detailed evaluation during pregnancy. It identifies Anaemia, Diabetes and Thyroid infections early for timely intervention.

Includes:

- Blood grouping
- Complete Haemogram (CBC)
- Urine routine examination
- Fasting Blood Sugar
- Post Lunch blood Sugar
- HBAIC
- VDRL
- Triple H (CLIA)
- Vitamin D-3
- TSH
- Hb Variants (HPLC)

₹ 2,400

DIABETES PROFILE

This profile is used to evaluate and monitor diabetes and its potential impact on vital organs. It helps assess blood sugar control, kidney function, and overall metabolic health. It supports early detection of complications and enables timely medical intervention.

Includes:

- Complete Haemogram (CBC)
- Urine routine examination
- Fasting blood sugar
- Post-lunch Blood Sugar
- Serum Creatinine
- Estimated GFR
- HbA1c
- Urine Albumin Creatinine Ratio

₹ 1,800

FEVER PROFILE - BASIC

This profile is used to identify common infectious causes of fever. It helps recognise viral, bacterial, and parasitic infections enabling timely diagnosis and appropriate treatment.

Includes:

- Complete Haemogram (CBC)
- ESR
- Smears for Malarial Parasites
- Malaria antigen Test
- Urine Routine Examination
- Dengue NS1 / IGM / IGG
- Typhi Dot IGM

₹ 4,000

FEVER PROFILE - COMPREHENSIVE

This profile is designed for a more detailed evaluation of persistent or unexplained fever. It includes an extended range of investigations to identify the underlying cause. It supports accurate diagnosis, early intervention, and informed treatment planning.

Includes:

- Complete Haemogram (CBC)
- ESR
- Smears for Malarial Parasites
- Malaria Antigen Test
- Urine Routine Examination
- S.G.O.T (AST)
- S.G.P.T (ALT)
- Blood Culture & Sensitivity
- Widal Test
- Leptospira Antibody IGM
- Chikungunya IGM
- Dengue NS1 / IGM / IGG

₹ 2,850

PRE-OPERATIVE PROFILE

This profile is required before surgical procedures to assess bleeding risk and organ function. It ensures patient safety prior to anaesthesia and surgery.

Includes:

- Prothrombin Time
- Partial Thromboplastin Time
- Complete Haemogram (CBC)
- Urine routine examination
- Random Blood Sugar
- Blood Grouping
- Serum Creatinine
- Triple H (CLIA)

₹ 2,500

ANTENATAL PROFILE BASIC

This profile is used for routine screening during pregnancy. It helps detect anaemia, diabetes, thyroid disorders and infections early.

Includes:

- Blood Grouping
- Complete Haemogram (CBC)
- Urine routine examination
- Fasting Blood Sugar
- Post lunch blood sugar
- HbA1c
- VDRL
- TSH

₹ 2,500

VITAMIN COMBO

This profile is used to assess common vitamin deficiencies affecting energy, immunity and bone health. It is often recommended for fatigue, weakness and preventive health

Includes:

- Vitamin B12
- Vitamin D3

₹ 2,655

FEVER PROFILE PAEDIATRIC

This profile is used for children with fever to detect infections like malaria, dengue & others.

Includes:

- Complete Haemogram (CBC)
- Malaria Antigen Test
- Dengue NS1 (spot)
- SGPT
- Blood C/S (1 bottle)
- Urine Routine
